

SANITARY.

From time in these columns the sanitation of Honolulu has been referred to as being in a very crude state. The dangers arising from the plans (or rather want of plan) pursued by the Board of Health have been repeatedly urged; but still no action has been taken. Look at our streets. Every morning filth of all kinds is deposited on them by the householders who live there. Sooner or later during the day, a cart comes round in charge of a var-colored object, who leisurely smokes his cigarette or pipe and takes away such portion of this as suits him. By-and-bye the rain comes and this is transformed to mud and slush, bearing in it the germs of disease. Apparently, the rubbish has returned to earth, but really, it is now in its most deadly form; it has, in it, the germs of an epidemic which only wants a favorable opportunity to decimate our already small population.

The perfunctory way in which the streets are kept clean is a disgrace. Possibly the matter rests between the Board of Health (as guardian of the public health), and the Minister of the Interior (as guardian of the public roads); and where two parties have a joint duty, it is generally performed by neither. We call their attention to it. But we suppose no action will be taken till the plague is amongst us.

Let the Minister of the Interior prepare or cause to be prepared, a plan by which a system of gutters will be arranged, running into one other, and thence into the ocean at some spot distant from Honolulu, and then let the Board of Health see that these gutters are flushed every morning with a stream of water sufficient to carry away all impurities, and that the remainder of each street is kept clean. Then, for the first time, will our streets cease to be propagators of disease as they are at present, and become what they ought to be, the veins and arteries through which the life of the city, pure air, is supplied to every inhabitant.

GOVERNMENT ADVERTISEMENTS.

We think it was an unwise step of the Ministry to take away the advertisements from the *Kuokoa*, *Par Aina*, and *Saturday Press*, and we hope that they will see fit to recall it. The Government here has made a practice for years past of inserting, as advertisements, copies of the laws passed from time to time, and other Ministerial notices and documents. Presumably, these things are published for the public benefit. They are meant for public information, and, as the Government intend that these things shall be on record for the public good, they have paid for them so as to secure that all shall be inserted.

Now, these things are not intended for the information of one section of the public, but for all. No one would have blamed the Ministry for giving Government advertisements to the *Elele* in order to diffuse them more widely; but while giving the news to a fresh section of the public with one hand, they take away, with the other, the same information from another section. No one can doubt for a moment that there are citizens of these Islands who

only read one paper, whether it be the *Par Aina*, *Kuokoa*, *Elele*, *Gazette*, *Advertiser*, *Saturday Press* or *BULLETIN*. We therefore claim, in the public interest, that it is not right to bestow these advertisements on any one paper. It is tantamount to saying to every citizen of these Islands: If you want to read the laws and Government notices you must subscribe to that particular paper. Thus dictating to free men what they shall and what they shall not do.

And, furthermore, it is a grievous cause of scandal against the Ministry that the favor should be extended to a paper with which one of themselves is connected, while those which have opposed the Ministry are to lose that patronage which, in the public interest, they are entitled to receive.

No Minister or other public man should use his public position or control over public moneys for his personal or private use and benefit. If he were to slip his hands directly into the public purse he would be publicly dismissed from office. And to do so in an indirect manner is equally shameful. We ask the Ministry, for their own sake, as well as for the public convenience, to reconsider the step they have taken, not in adding to the list of papers patronized by the Government, but in taking some from the list. Every paper is entitled to its fair share of the advertisements intended for the public information.

The schooner Rosario of Spreckels' line is loading for Honolulu at \$2.50 per ton.

The bark Edward May will, we are informed by C. Brewer & Co., leave for Hongkong on Wednesday.

The steamer C. R. Bishop will make the circuit of Kauai this trip. She starts this afternoon.

The Consular corps received official notice on Saturday that the Coronation would take place on the 12th of next February.

The Royal Hawaiian Band will play at the Hotel this evening at 7:30 p.m., when Mr. Berger will present an excellent programme.

The Board of Education met on Friday last and transacted the usual routine business. Nothing of public interest transpired.

ANOTHER scientific mission to Central Africa. On the 5th July the French Government despatched a mission for Central Africa, under M. Giraud.

A HUNTING excursion is preparing at Bergen, in Norway, to go to Spitzbergen or the North Pole, if possible. The price for excursionists is \$137.50, (provisions extra.)

MR. HALLENBECK, we hear, leaves Wailuku on Tuesday or Wednesday. The good work is going on prosperously. Many, both foreigners and Hawaiians, are being converted.

Messrs. W. G. Irwin & Co. inform us that the E. L. Pettingill will sail for San Francisco on or about Wednesday with a small cargo.

In our list of speakers responding to the toasts at the King's *ban* on Monday, Mr. J. Brown's name was inadvertently omitted. We had this notice in type some days ago, but it accidentally got left out.

Our weekly contemporary, the *Saturday Press*, is going to start in business for itself. New premises on Kaahumanu street are being occupied, and we hear it will be printed there on its new press after the 1st of September. We wish the new enterprise the success it deserves.

Two drunks, two fast drivings, one Plantation deserter at the Police Court from Saturday. Nothing on Sunday.

The German bark Josefa arrived yesterday from Cardiff, with 1082 tons coal. She is consigned to H. Hackfeld & Co.

Our attention has been called to the libertine conduct of certain hack drivers towards ladies. We warn them that, if the conduct is repeated, stringent measures will be adopted.

The concert on Saturday night went off very successfully. Owing to the arrival of the mail we hold over our detailed report till to-morrow.

The Anjer Head arrived on Saturday night at 7:30. She brings dates to the 2nd inst. On board are 802 passengers, the greater part of whom are for Honolulu.

The following amount of sugar came to hand on Saturday: Lehua, 583 bags; Waimalu, 949; C. R. Bishop, 400; Waialeale, 1000;—total 3087 bags.

The D. C. Murray sailed on Saturday for San Francisco. She took away 4315 bags sugar, 1206 bags of rice, 156 blis molasses, 123 bales of wool, 110 bnchs bananas, and 1 esk sperm oil.

ALL the furniture manufactured in the East for the Palace arrived in San Francisco on the 1st, and will come by the Eureka. It is a large lot and will take up one-third of the vessel.

DR. FITCH will, it is said, take a batch of 12 or 15 lepers with him to Molokai to-day. We think that instead 15 there must be 50 who ought to be taken. It is a danger to the public to allow these unfortunate creatures to be at large.

It is proposed to deepen Behring's Strait, and to blow up with dynamite all the small islands which prevent the warm waters of the Indian Ocean from flowing through it. This would result in an entire change of climate for the whole of North America, north of San Francisco.

HAS there been any meeting of the Board of Immigration since the incumbency of the late President, Mr. Armstrong? And are the acts reported in the public prints from time to time formal acts of the Board itself or merely informal acts of its President?

OUR Hilo Correspondent sends us the following items:—The Telephone is now being put up to connect Ooka-la and Laupahoehoe, also to extend into Hilo district. The roads between Laupahoehoe and Hakalau are in a frightful condition. It is as much as a man's life is worth to ride over them. The feeling throughout the Hilo district in regard to the actions of the late Legislature is one of intense disgust.

TWO Norwegian laborers deserted from the Haiku Sugar Plantation, and got to Honolulu on the 5th inst. by the Kilauea Hou. A policeman with warrants for their arrest came by the first vessel following, the schooner Waialele, on Saturday; but the birds were flown, they had gone to San Francisco by the W. H. Meyer on Wednesday. This is only one of the numerous cases which show what an necessity an inter-island telegraph system is.

A NEW EL Dorado. — Captains Burton and Cameron have returned from the Gold Coast, Africa, with wonderful stories of the wealth of gold to be obtained there. Negro women wash the sands and obtain from a half to four dollars a day. After a shower of rain nuggets can be found in the streets and roads. The country is impregnated with gold, and only wants to be known to become a second California.

A FATAL ACCIDENT.—On Saturday afternoon at Waimanalo, Charles Nolte, the only son of Mr. H. J. Nolte, a well-known resident of this town, jumped along with other boys, from the railway cars on one of the sugar plantations, and accidentally stumbling fell under the car which passed over him, causing instantaneous death. What makes the case more sad is, that his mother would not allow him to remain in Germany lest he should die away from her. The funeral which took place yesterday was largely attended.

An ingenious swindle which may soon be expected among the Summer importations at this port, has lately been exposed in London. It consists in artistically coloring fish, meat and game so that they appear to be of the finest quality, and hawking them about the streets at tempting prices. A fish thus prepared, which had passed the inspection of a wary house-keeper and an expert cook, was dropped into a pot as a salmon of particularly artistic hue and came out a codfish of the most plebeian type.—*Melb. Argus*.
